Re: Program Modifications to Duke Energy Progress, LLC's Demand Response  
Automation Rider & Neighborhood Energy Saver Tariff  
Docket No. 2015-163-E

Dear Ms. Boyd:

On January 14, 2020, Duke Energy Progress, LLC ("DEP" or the "Company") filed a request for approval from the Public Service Commission of South Carolina (the "Commission") of proposed modifications to the Demand Response Automation ("DRA") Rider and Neighborhood Energy Saver ("NES") Tariff. That letter was accompanied by redlined and clean versions of the associated tariffs. While the redlined tariff changes were appropriately reflective of the changes the Company seeks, the filing letter inadvertently referenced a change from "compact fluorescent bulbs" to "energy efficient lighting." That change is already reflected in the currently effective tariff on file for DEP. The letter should have instead referenced changes from "Low-Flow Faucet Aerators" to "Water-Saving Faucet Aerators," "Low-Flow Showerheads" to "Water-Saving Showerheads," and "HVAC Winterization Kits" to "Window AC Winterization Kits." The attachments included with the January 14, 2020 filing are included herewith for ease of reference.

Kind regards,

Sam Wellborn
